

BOARD OF MEDICINE [653]
Notice of Termination

Pursuant to the authority of Iowa Code section 147.6 the Board of Medicine hereby terminates the rule making initiated by its Notice of Intended Action published in the Iowa Administrative Bulletin as **ARC2298C** on December 9, 2015, proposing to amend Chapter 17, “Licensure of Acupuncturists,” Iowa Administrative Code.

The proposed amendments would have updated Chapter 17 throughout and provided more definitions related to the practice of acupuncture. At a public meeting on December 10, 2015, the Board determined to terminate the rulemaking at this time to allow the Board more time for the review of these amendments and the language of Iowa Code Chapter 148E concerning the practice of acupuncture.

It is not anticipated that this Notice of Termination will have any impact on jobs.
